RELEVANT EDUCATION

**Web Development Immersive Program Student
General Assembly**

San Francisco, CA | Oct 2016 - Jan 2017

- Built fully functional applications utilizing JavaScript/jQuery, Ruby, Rails, HTML, and CSS with working knowledge in many other languages, frameworks and web development processes within 12 weeks.

WORK EXPERIENCE

**Web Developer / Software Engineer in Test
Undisclosed Startup**

San Francisco, CA | April 2017 - Present

- Design and build internal web tools using HTML, CSS, and Javascript.
- Create and maintain the engineering documentation for the application workflows and feature updates.
- Write test plans and perform QA for iOS apps.

**QC Specialist
Google (via Vaco)**

Mountain View, CA | May 2015 - Oct 2016

- Led a team of content review coordinators at GooglePlay Movies/TV team.
- Worked closely with encoding, operations, and engineering teams to track and resolve bugs related to digital content and internal tools.
- Communicated with cross-functional teams to organize and prioritize time-sensitive projects and ensure the content gets published on the Google Play store on schedule.
- Participated in QC policy development

**Content Review Coordinator
Google (via Vaco)**

Mountain View, CA | Sep 2013 - May 2015

- Reviewed Korean language films for quality and localization issues – video, audio, artwork, metadata, and subtitle files.
- Educated the local partners and the post-production houses with the onboarding process and the content delivery specifications.
- Provided technical support to the Customer Service team with user reported bugs.

**QA Tester / Korean Translator
Kiwi Inc.**

Palo Alto, CA | Jun 2013 - Aug 2013

- Performed QA testing for mobile games including linguistic improvement and functional issue reports.
- Translated English narratives and dialogues into Korean.
